ABOUT US

Hazels is a music-led restaurant & wine bar located in the heart of St Albans, with a warm & relaxed atmosphere.

We use the highest quality ingredients from local suppliers & artisans to produce a menu based on classical French cookery.

Our vintage music system & in-house vinyl collection creates a backdrop like no other for any event or celebration.

Within this private hire pack you'll find details of our standard menus & pricing. We are also able to accommodate bespoke requirements so please don't hesitate to get in contact if you can't find what you're looking for.

We look forward to working with you to create something truly memorable.

At the heart of every memorable celebration lies exceptional food.

Our French-inspired kitchen offers an elevated sit-down menu of small plates and sharing dishes, designed to bring guests together around the table. Or a 'House Buffet', offering an abundant yet elegant dining experience for relaxed entertaining without compromising on refinement.

If you had something a little different to the options listed in mind, please don't hesitate to ask.

OUR DRINKS

Our drinks offering is curated with the same care and refinement as our kitchen; a celebration of craftsmanship, provenance and pleasure. From the first apéritif to the final digestif, we present a drink designed to elevate every moment of your event.

Our Little Mercies cocktail menu features unique and creative twists on classic cocktails.

Our current house drinks list can be found on our website.

Entertainment

Make the most of our vintage vinyl sound system by adding a Guest Selector (DJ) to soundtrack your event, playing a selection of jazz, soul and ambient sounds from their vinyl library.

A 3 hour set is available at £300.

Alternatively, for a more bespoke experience, Live Jazz entertainment can also be arranged.

*live jazz is subject to availability and event requirements (POA)

Bespoke Entertainment

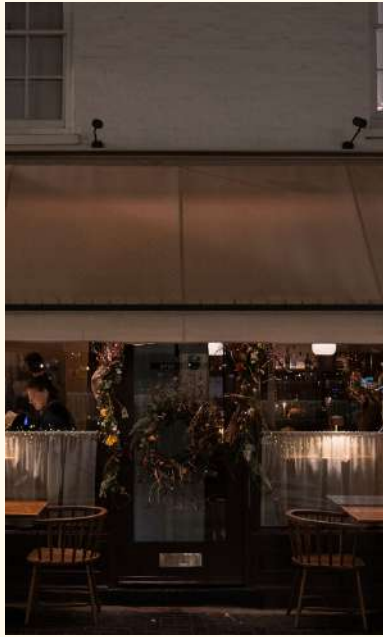

If you have something else in mind, please do not hesitate to get in contact. We are able to accommodate most requests.
